## WordPress Hosting features.

The best WordPress Hosting features you need in one convenient place.

## **24-hour malware scans and removal.**

Hackers use malware to steal your customers' info, deface your site and ruin your reputation. So, our malware scans and removal are performed on your site files and databases in search of known malware signatures every 24 hours. In some cases, malware removal may occur up to 48 hours, depending on time of backups and place in the queue.

## **Built-in speed and performance.**

Our platform is optimized for WordPress, with high-performance features like load-balanced servers. Our clustered server environment means your site is ready for traffic spikes.

## **Managed and automated tasks.**

Your hosting plan is set up with WordPress installed and ready. We back up your site nightly and keep it safe by ensuring you're always on the newest version of WordPress with all security updates applied.

## **Integrated site optimization tools.**

Boost search engine rankings and improve your visitors' experience with site speed tools. Test your site's performance with GTmetrix, then use the report to help optimize your speed.

## **Daily backups with 1-click restore.**

We back up your site every night — files, databases, everything — and keep that version safe for a full month. Need to restore a file? Do it with just one click.

## **Migrate your existing site.**

With our auto-migration feature, you can migrate your WordPress site to us with 1 click. If you use a custom login page, our support staff is here to talk you through it.

## WordPress Hosting themes.

Our pre-built themes are easy to customize — choose your industry and we'll give you a ready-made site, complete with images. Or make it entirely your own with thousands of third-party themes and plugins.
